Science

### Talk About It

Share one big sin and one small sin that you need forgiveness for.

### Live It

Find two balls, one big one and one little. Which ball will hit the ground first if they are dropped together, from the same height? Drop both balls, and watch them hit the ground at the same time. Talk about how God forgives all sins, no matter how big.

### Pray About It

God of Mercy, thank you for forgiving all our sins, big and small. AMEN.
